

## **Paranormal Investigation.**

### **The Leopard Inn Stoke on Trent 29 April 2017**

This event was held by Spirit Medium Laura Bailey and her group 'Team Soul Trader'. There were approx 20 people in the party taking part.

The intention was to try out the recently developed Kinetic Ghost tracking system which was working along side 'Alice' ITC software (spirit word communication). This was set up in the main corridor on the second floor.

**HISTORY:** The building dates back to the latter part of the 17<sup>th</sup> century and for many years a hot bed for paranormal activity. A high number of groups have conducted investigations at The Leopard and some evidence is available via the internet and YouTube. There is little doubt that The Leopard has a dark history and most of the activity is dark in nature. A walk through of the building also indicates that some groups had been experimenting including demonic worship, always a worry when you find that.

Only Tony Hayes was available from the PI-UK group, so there were limitations on what other equipment could be used. Some K2 and Mel Meters were loaned out to those attending plus the full spectrum camera.

**EVIDENCE:** Some good evidence was found and these are listed as follows:

**ALICE:** This new software remains under development. There was an issue with saving a history text file of the word(s) written. This was only corrected a few days later, which was unfortunate. A number of the movie's taken close to 'Alice' did however record some of the words written. Many of the words were relevant to what was taking place at the time, a séance being carried out for example, a movie shows the glass moving in a circular motion and the word that came up on Alice was 'circle'. There were a number of instances like this throughout the night.

**KINETIC TRACKING:** The system was once again reliable and worked fine without issue. In hindsight a CCTV camera (night vision) should have been used to record both computer screens (Alice & Kinetic Tracking) So in the future this will be deployed.

On one occasion, one of the group, Amy Simpson, saw a small stick man figure appear briefly on the tracker before moving upwards before disappearing through the ceiling over 5 to 8 seconds. On the movie one link below, at the start of the movie, you hear some read out the word from Alice 'Wire'. It was at this point she saw the stick man.

**SEANCE:**

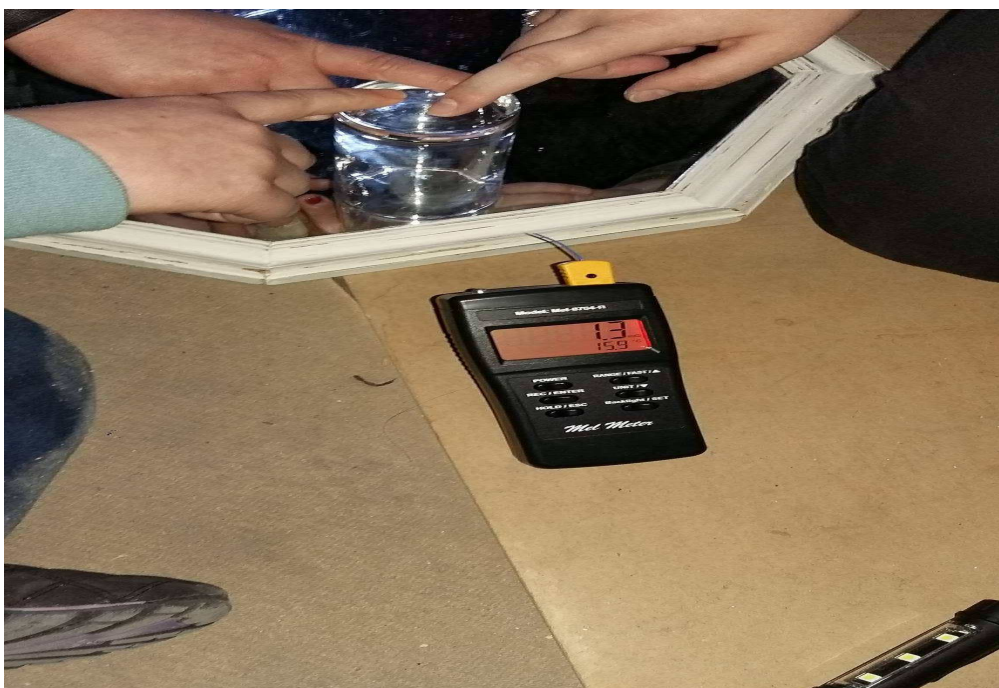

On this movie link you will view a seance taking place. The group uses a mirror facing upwards and a glass beaker where each person involved places one finger.

**MOVIE TWO LINK:**

<https://www.youtube.com/watch?v=mBiRwtSdBO8>

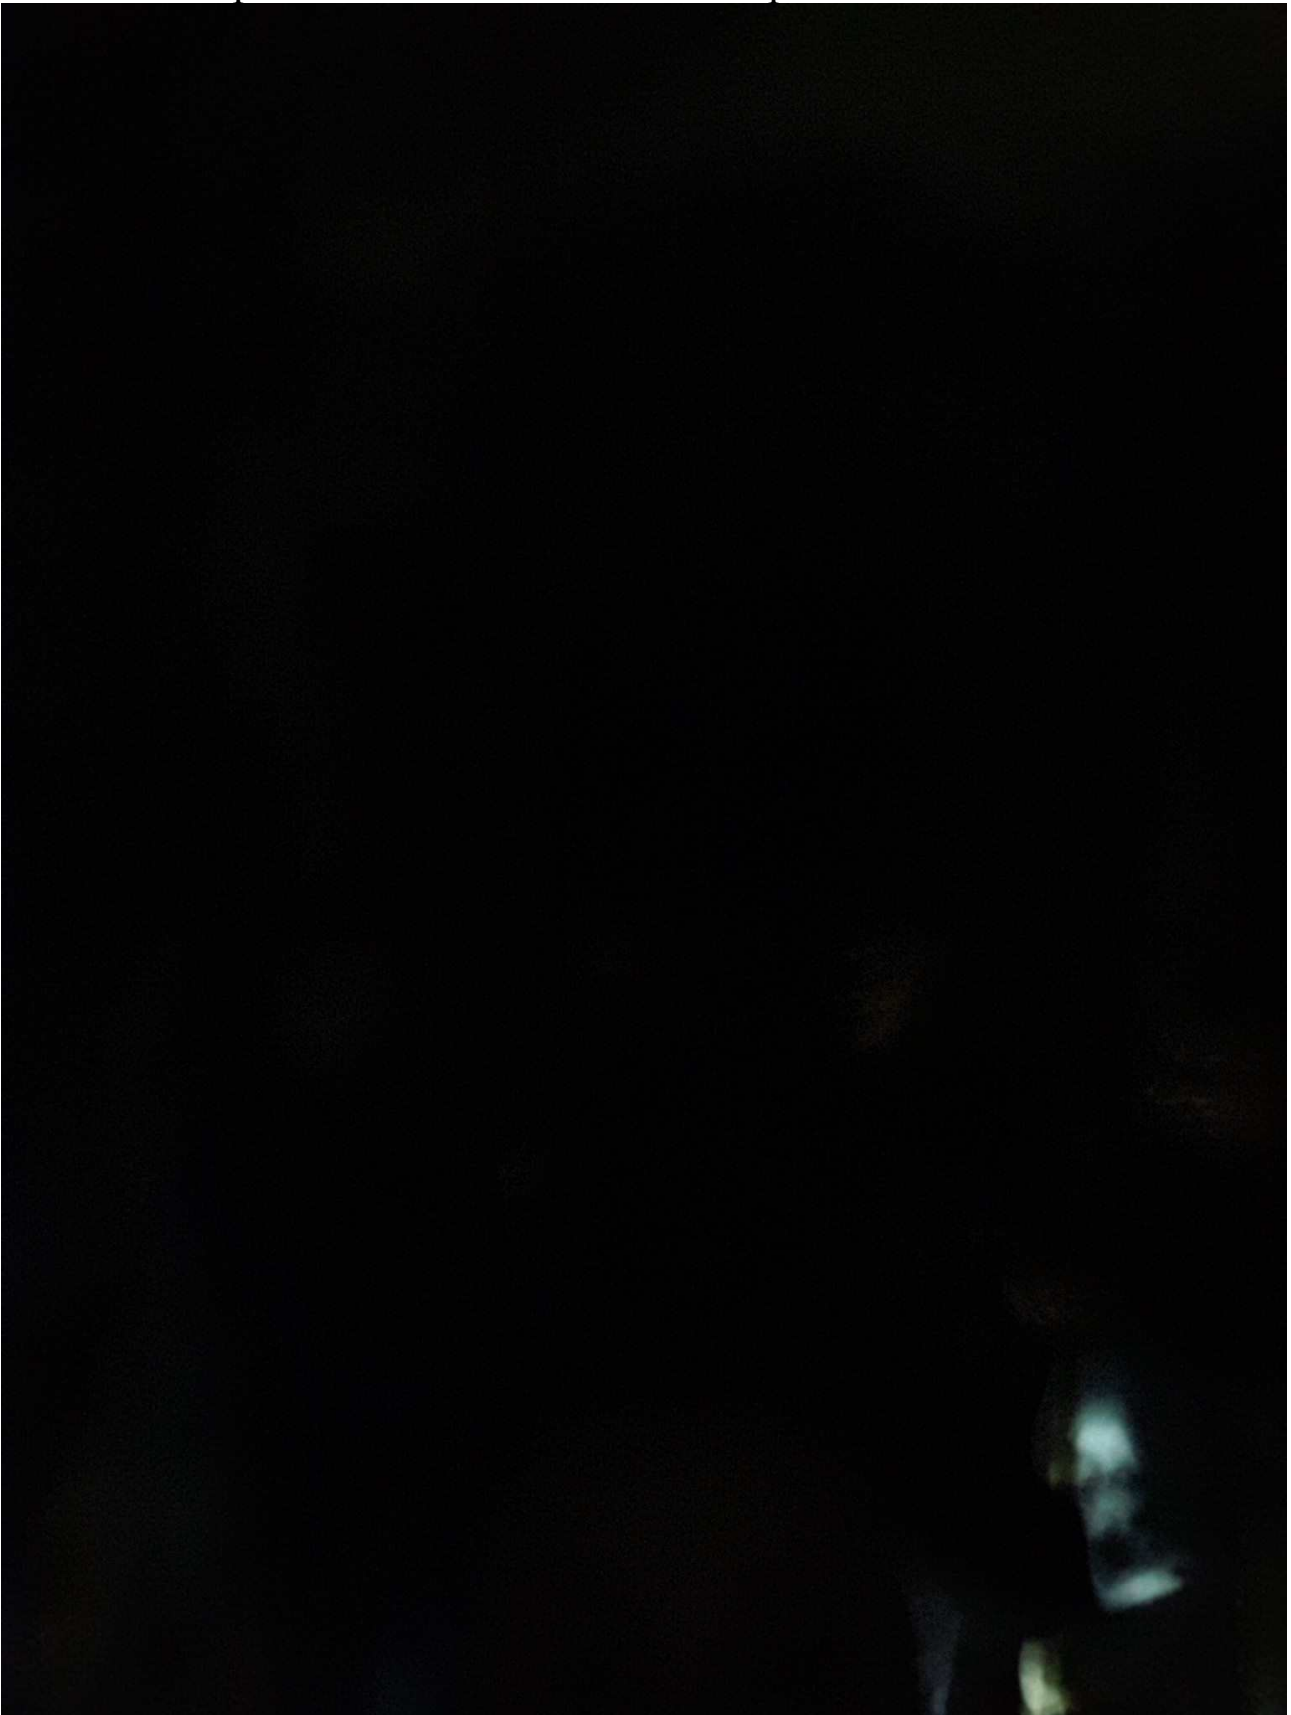

I have always been sceptical of this activity, I simply don't see any evidence from them, however on this occasion I decided to place a Mel EMF Meter next to the glass just to see if there was some form of energy that could be recorded. I was surprised to find a reading of between 1.3 and 2.0 mg where the meter had remained at zero throughout the night. This indicated that whilst the seance was being conducted, the EMF meter started to spike, therefore EMF was present. There is no explanation for this other than the séance was the cause of it. Once the Mel Meter was moved two feet away the meter flat lined.

*Here is the photo of the séance and the Mel Meter indicating 1.3mg.*

**Selfie Photo:**

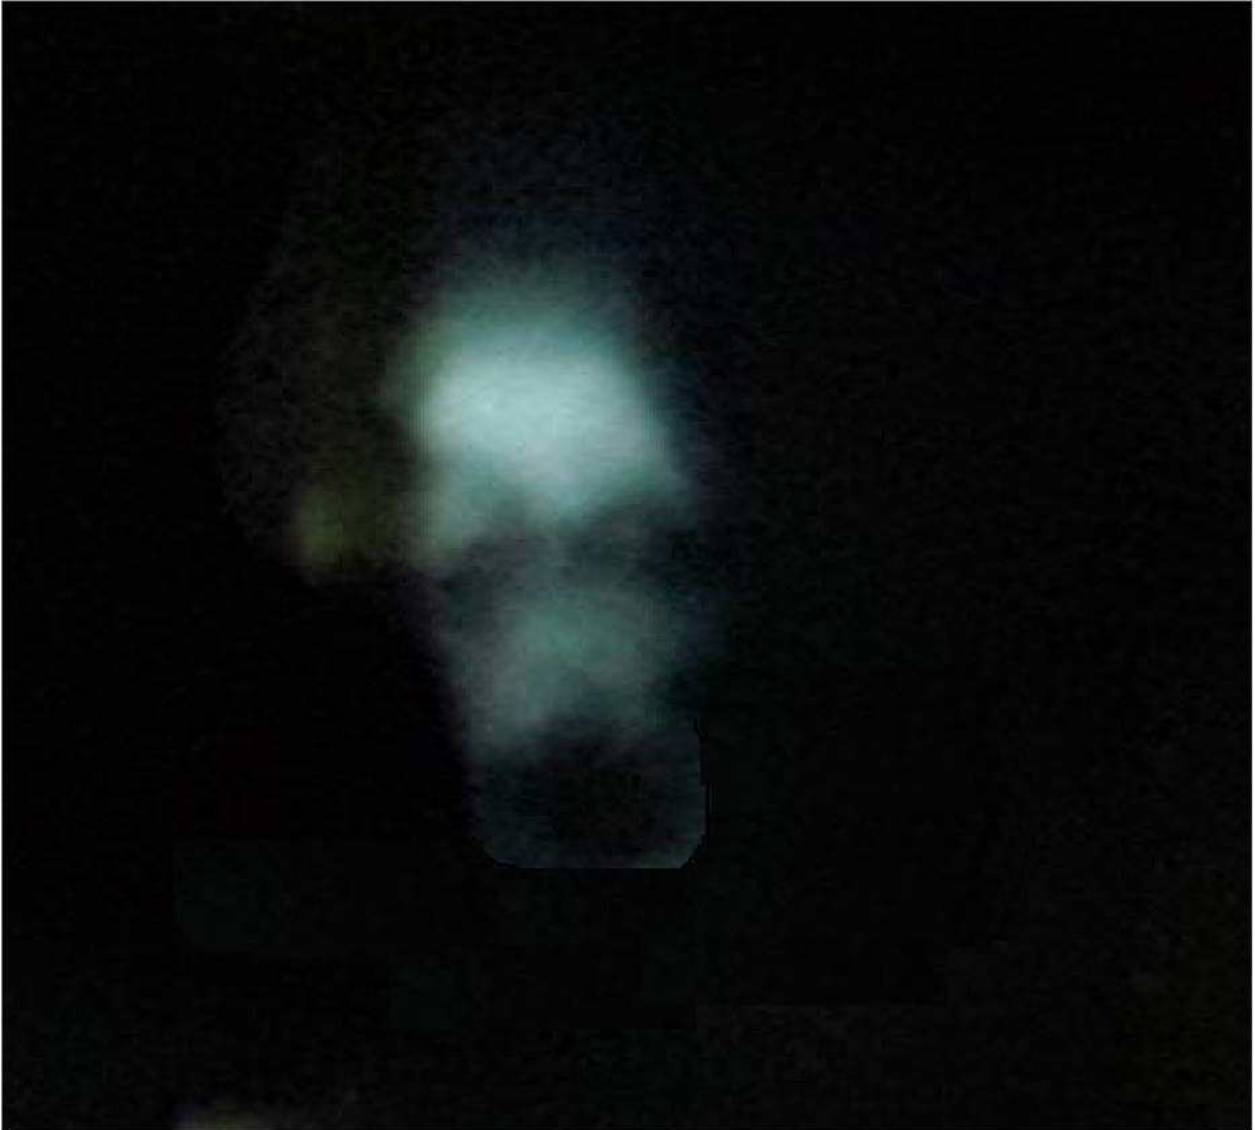

This photo was taken by Amy Simpson, the 1st photo is the full picture as taken and 2<sup>nd</sup> photo is the white area blown up.

Amy Simpson reports that she felt a pressure on her back and the reason she decided to take this photo.

**UPDATE:** *The image caused some great discussion of Facebook and the suggestion was the anomaly was in fact a dog. I then air brushed the bottom whitish area out and I have to agree it does look like a dog.*

**UNEXPLAINED MIST SHAPE:** One of the group, Lee Simpson, was using the full spectrum camera and wisely used the movie option a number of times. He was able to film an unusual mist shape that appeared to be around Medium Laura Bailey. This could not be seen with the naked eye or normal field cameras, only the full spectrum picked this up. The camera continued to have issues with focusing when this mist was present. The mist appears throughout *MOVIE ONE* below. Unexplained.

**MOVIE ONE LINK:**

**THE EXTRA FOOT:** Like many investigations, you have the odd thing happen which is unusual and you're not able to explain it away. This photo, taken again by Lee Simpson, is one such event that can't be easily explained. The photo below was taken when a séance was taking place. On closer examination there appears to be a foot between the people sitting down and the skirting board (see white arrow indicating the object). The second photo below is the same photo but next to a further photo for comparison reasons that was taken just a few seconds later and the foot is no longer there.

For reasons of completeness, the links for Movies 3 and 4 are linked below.

**MOVIE 3:** [https://www.youtube.com/edit?o=U&video\\_id=wZ5lrWJ6Mhc](https://www.youtube.com/edit?o=U&video_id=wZ5lrWJ6Mhc)

**MOVIE 4:** [https://www.youtube.com/edit?o=U&video\\_id=p8\\_1sH8ui5E](https://www.youtube.com/edit?o=U&video_id=p8_1sH8ui5E)

**TEMPRETURES:** Throughout the night the baseline was between 15 and 16 degree centigrade.

**Other notes:** Lee Simpson took a high number of full spectrum photographs, nothing was found unusual except noted above.

**CONCLUSION:** The night was eventful and excellent evidence was found. You have to be in The Leopard Inn to experience the 'feelings' of the place, and not all of them pleasant. It does feel sinister and the rooms available to investigate have been left in the same condition for countless years. The owners of the Leopard have placed a number of life size dolls as well as macabre paraphernalia throughout the rooms which will give you a fright if your not aware when you open doors or walk into rooms, it would be better if these are removed when investigating. This is one of the few places where ten minutes in the rooms alone, makes you feel very uneasy.

I have little doubt that a further event will be held at The Leopard, and next time there will be more thought on how best to investigate the rooms and CCTV to record the computer screens.

The Leopard is one hell of a scary place to investigate and once again lived by it's reputation.

Tony Hayes
